SUMMARY

Full-Stack Developer with hands-on experience in building end-to-end web applications across front-end and back-end. Proficient in **React, TypeScript**, Java, Spring Boot, Python, and modern API development, with strong capabilities in designing scalable systems, implementing business logic, and delivering user-focused solutions. Experienced in leveraging **AI-assisted development tools** to accelerate coding, improve productivity, and support rapid prototyping and problem-solving. Familiar with cloud and DevOps best practices, including AWS EC2, **Cloudflare**, GitHub Actions CI/CD pipelines, Docker, and automated workflows.

Skills

Frontend: React, TypeScript, JavaScript, Next.js, Redux

Backend: Java, Spring Boot, Python, FastAPI, Node.js, RESTful APIs

Cloud & DevOps: AWS (EC2, S3, RDS, Lambda), Docker, Kubernetes, CI/CD, GitHub Actions, Jenkins

Databases: PostgreSQL, MySQL, MongoDB, Redis

Tools & Methodologies: Git, Agile (Scrum), Jira, Confluence

AI-Assisted Development: Experienced in leveraging generative AI tools for code generation, debugging, and rapid prototyping

PROFESSIONAL EXPERIENCE

CTC Group

Full-Stack Developer, Melbourne

Aug.2025- Present

- Developed and maintained a sales management system (front-end & back-end).
- Built UI interfaces and back-end services to support business operations.
- Implemented an intelligent inventory management system.
- Created dashboards and reports for data visualization and insights.
- Provided system support, troubleshooting issues and ensuring stability.

Hightail

Full-Stack Developer, Melbourne

Aug.2023- Feb.2025

- Developed an online booking system for restaurant reservations.
- Built responsive UI for booking flows and user input.
- Developed backend APIs for validation, availability checks, and booking logic.
- Implemented time slot management to prevent double bookings.
- Integrated third-party services and managed reservation data in databases.

Huayun Zhongsheng Technology Co.

Back-end Developer Shenzhen, China

Aug.2021- Aug.2022

- Contributed to the development of a tax digital platform, focusing on backend modules.
- Fixed bugs in task management and system administration modules.
- Assisted in MySQL database design and API development.
- Implemented business logic and improved system functionality.
- Gained experience in system architecture and development lifecycle.

EDUCATION

Completed in 2025	Master Of Applied Information Technology	Victoria University
Completed in 2022	Bachelor Of Computer Science and Technology	Guangdong Technology University
